OJH 3

B/c other country involved more rigid -

Chambers + 4 C/Com — Branch Korea

Secret

Focus on OJH in Korea — deploy to Korea in support of op plans

Bureau of Intell. Negatives, like had hardly cats.

Focus Korea / deploy <sup>ENRUX</sup> and Spacecom were subs. doing

Critical infrastructure protection

disruption @ Elmendorf, disrupted deployment to Korea

Then was focused on info ops  
NSA / and KAM

Working premise was deployment to Korea -

numerous other elements that had Alphas + numerous critical infrastructure elements in US PACOM.

Worked piece was things that would impact deployment to Korea.

Other ex. Russian —

Now would be Clamat on Air Assets.  
decision makers would have to adjudicate assets.

OSH 4

Spacecom had similar flow - disrupt  
to limited degree flow to K&A

Gen Shultons  
72 hr  
TP tried  
Time phased  
force deployment

attempted to disrupt event & Transcom had  
to reconfigure TP fid - time phased  
force deployment.

For over one about 2k events.  
including Korea. - event = MSL

Most Paccom & but other coms had events.

MSL database -  
Called  
JMSL  
then

MSA Among the events were sent that  
N proposed not yet formally put into  
MSL

Dim. belonged to Paccom. Could go in and create  
events in system and manage.

The AIC never reached stage of event in  
MSL

Discussion was in conference @ SAA -  
DNL which Conference - prob mid  
planning - not MSL conf - b/c did that  
# in HI.

Conference - Summer 2000

Either mid plant conf or ~~conference~~ initiated plans conf.

Go prior to putting plans in MSL.

Norad came to Conference w/ series of things they had thought up.

Who there from N:

3 Groups 2 AF officers LT Col & Maj  
1 Naval officer - more junior  
Major was main guy - junior Navy guy  
ended up pick pieces - MAF was diagnosed etc  
pick up cuts

Recollection of event

Proposed by Norad - Fly plane into an comm installation somewhere in SW -  
airline came from outside US  
as E did not have plane not with Pentagon

90-100 people @ Conference  
discussion in front of everyone

Somebody we have FAA people there but doubt FAA was involved in it  
couldn't

JF exercise other in charge -  
JRA is their contract support.  
Lt Col. Andrew Buehler - New  
Air Force - run Boss Ed Maddox conf.

Exercise was 10 days long

DSIT 6

PF Hanique was Coop event in exercise  
was going to be late in exercise  
Coop just to getting energized  
Coop went into bag for long time  
when Russians went away

Coop - Cawnt - go thru some processes,  
plans weren't mature. Would involve  
Jt Staff & Services (AF more advanced)

it was  
whether  
event

didn't want to do COG - b/c more  
classified & involved people not in Pentagon.

Go to JTR & Back

Months against  
N  
idea

- read Flying alt in Pentagon put by footprint
- ① emerg eval + involved COG
  - ② gotten attention of leaders focused on Pentagon.  
didn't want that, wanted focus on  
deployment & no belaboring.

would  
drive us  
off into  
last hole

event in SW had similar flavor - attention  
getting, and focus was on Pacific,  
deployment.

Opposition like too far fetched: "Sure somebody did"

Real real people against etc it would over shadow.  
(enrich)

DNK a lot of discussions

N have papers on it? <sup>would</sup> say yes, don't force paper in.  
<sup>Mat</sup>

Why Chagnard? He wasn't happy

DNK what he  
said -

argument in favor: don't know <sup>argument</sup> but so  
everyone wants to raise profile

N had not been invited to Chagnard  
exercise in long time - post Wall  
down N devoted to back water.

Normally ideas  
have been some  
times

He & didn't have much contact w/N.

Somebody may have had what for it but I  
had no knowledge of it.

Vigilante  
overlook

N written into docs - Russian long range nuclear  
Arms

Do not recollect flying all into anything -

Shuck him as brand new - I think.

Coop just in

Other than Nollan exercise, don't remember face protection  
for Pentagon.
